Prevention, Protection, Safety

OUR VISION

“To be the most professional and the best security Services Company by working with highly trained security officers that are committed to honesty, trustworthy and hardworking as a recipe to providing reliable security services to our esteemed customers”.

OUR MISSION

“To provide the best security services in the market with attractive tailored security services in tandem with our commitment to honesty, trust and professionalism from our well trained security officers”.

OUR MARKET

Our company targets both medium and large firms and institutions; a market that continues to be vulnerable to security risks round the clock. This market include institutions, large firms, factories, shops, malls, banks, hotels, office buildings, residential areas, body guard services as well as provision of security services at various functions.

So that we may be responsive to the market needs with the most suitable and attractive security services, our company carries out a comprehensive site survey of the customer's premises so that we come up with the correct number of officers suitable for effective security results at the particular site.

We also ensure that we inform our prospective customer of any potential challenges on site and offer our sound advice and recommendation on what measures to take to arrest such a situation.

Once we are through with the site survey and upon a review of the survey report with our prospective customer, we come up with the most appropriate security services quotation as a tailored response to his/her premises security requirements.

We provide the following kit and accessories to our officers so that they may perform at their level best as per their terms of service with us and as expected of them by our customers:

Uniforms,
Caps and Boots,
Whistles and lanyards,
Raincoats,
Torches and batteries,
Identification Badges,
Guards Notebooks and pens,
Mobile Phones.

All our guards are regularly checked at their designated sites of posting by an area supervisor; using motor bikes. Impromptu spot checks are also carried out both during the day and at night to ensure that all sites are manned as expected. Additionally, we keep standby guards for relieving those who may fall sick or due to emergencies, may seek permission for absence from duty.

All our guards and other staff are highly motivated to create harmony, team spirit, trust, honesty, and commitment to their duty for better performance and ensuring the best level of customer care to all our esteemed clients.
